

Expanding Our Ability to Serve You

The SHSA is committed to being the industry leader in safety in Saskatchewan. This means that we need our staff to be continually improving their knowledge, skills and abilities in order to better serve you. David Walker, a safety advisor based in Regina, exemplifies this. Not only is David a fully qualified safety expert in the service and hospitality industry, but he has recently completed certification which recognizes his safety expertise in another industry, construction. This breadth of knowledge and training greatly increases his ability to help you assess your safety needs and provide your teams with the training they need. Congratulations, David! Keep making a difference!

To contact David concerning your safety needs, please call (306) 522-5499 or email him at david.walker@sasktel.net.
